Create Session

The entry point to programming Spark with the Dataset

In [2]:
```
from pyspark.sql import SparkSession
```

In [3]:
```
session = SparkSession.builder.appName("sql").master("local").getOrCreate()
```

In [5]:
```
data = session.read.csv("churn.csv", header = True, inferSchema = True)
```

In [7]:
```
data.show(5)
```

```
